Our Mission:

New Vision believes it has a special commitment to support each Corporate/individual's goal. To this end, New Vision places emphasis on the educational, professional, and personal growth of each student.

Programs, policies and activities — which have been designed to implement this philosophy and purpose — are evaluated periodically and changed, as necessary, to meet the needs of the students and the accelerated requirements of unique education.

The primary emphasis of our educational experience is on equipping students with the applied skills and the professional and ethical perspectives necessary for success in the future career.

New Vision delivers an education that is designed to prepare students for work in the areas of Business, Graphic Design, Media Production, Information Technology and Net Working.

Training for Corporate:

Courses are designed according to the organization's requirements. A training program can be discussed and tailored to the particular needs of the company, department or institution.

In all cases, we would discuss your organizations needs with you before planning the course and identify a suitable training program. The benefits of a customized program are:

- A personalized program which offers more scope for in-depth discussion of any specific item or all of the elements covered
- Smaller group activities
- Time to develop skills, practices and observation, including role play if this is wanted
- When the issues you need to tackle are sensitive, the extra time in a personalized program can pay dividends. People will feel they have the space to address difficult matters and the opportunity to re-evaluate their new skills before the session ends.
- There is more flexibility to allow for issues that arise out of the training program to be followed through as part of the day's program, rather than being left for 'some other'

About New Vision Training Center

Head Center: AlAin

Branches: Abu Dhabi through our business partner – Al Hosn University: Continuance learning center

Element K Customized Training Courses for specific needs;

English Courses	برامج اللغة الإنجليزية
English for specific needs	برامج اللغة الإنجليزية للأعمال المتخصصة
English for business	برامج الإنجليزية للأعمال
I.T Courses	برامج تقنية المعلومات
Management Courses	البرامج الإدارية
Financial Courses	البرامج المالية
Educational and Family Courses	البرامج التربوية والأسرية

Counseling:

As part of the Student Services Team, we have many professionally trained Counselors who are available to help , listen , and guide students through any problems that they may be experiencing.

[Individual counseling sessions are available and all communication with the counselors is private and confidential]

Specialized consultants who can do "customized courses" for specific needs or for business requirements, and help groups to meet their business goals.

Our center has local and international accreditation certificates such as;

- ICDL (International Computer Driver License), as a testing and training center.
- Accredited by CERT Ministry Of Education (Computer – I.T, Management and English Training Center.)
- PMI Authorized Testing Center: Microsoft, Cisco, HP, COMPTIA
- Optimiza Academy. Executrain – International computer learning center.
- Many international associations and institutes.

Our Instructors:

We have an outstanding team of instructors, who are committed to excellence in teaching, they are well trained with broad knowledge and experience in the fields they are involved in.

They are fully equipped with Pedagogical knowledge and sufficient experience in methodology of teaching.

Their performance is regularly evaluated and monitored in order to follow up the highest Instruction Excellency Standards.

We operate a comprehensive induction program for all new employees, and we committed to provide high quality training and development for all our staff regardless of their positions in the institute.

Evaluation: [high student achievement Program]

Evaluation is adapted in order to make a judgment about the degree of merit or worth of the information collected as well as to provide information for both teacher and student about the progress of that student so that corrective action may be taken to help achieve the desired learning outcome.

Teachers may wish to have students work individually on written assignments, presentations, quizzes; or performance assessment tasks in order to assess individual progress.

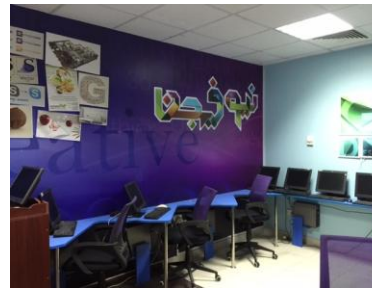

Course graduation transcript is available upon request, and it is automatically given to each student along with his attendance certificate simultaneously.

Classrooms:

New Vision classrooms are anything but ordinary. The teacher/student ratio is currently 1 to 14, which means that students learn in small groups and receive individualized attention. Institute members are professionals in their fields. The quality of the learning and teaching environment is constantly monitored through wide surveys, student evaluations, and statistical analyses.

Each classroom is equipped with data show projector, and an adequate number of PCs. Smaller rooms for meetings and group discussions are also available.

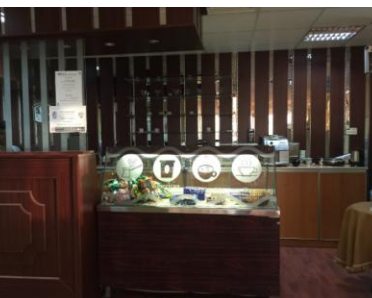

All computers are connected to the internet by WINDOWS 2003 small business server.

Café:

The institute provides a café which offers various meals and beverages, prices are set reasonably.

In addition to the excellent classroom facilities, the students can enjoy their break time in our contemporarily decorated and furnished Café in a unique atmosphere.
